## IS YOUR VEHICLE READY FOR WINTER DRIVING?

It's a cold winter morning, and you are late for work. You hop into your car and it won't start! You begin to realize that the reason your car isn't starting is because you forgot an important part of car maintenance, preparing your car for the extreme temperatures of winter.

When cold weather hits, most cars perform a bit more sluggish than usual. The oil takes longer to circulate, the engine takes longer to reach operating temperature, and your car battery may not have its full charge. Prepare your car for cold weather.

**Below are a few service items to ask yourself. . . . .**

- Has the Battery been tested lately?
- Have the Fluids been tested lately?
- Wiper Blades working well?
- Is the heater working?
- Tires or Snow/Studded Tires adequate?
- Do you have chains and do they fit your tires?
- Are the Drive Belts and Hoses in good shape?
- Are all your exterior and interior lights working properly?

**Complimentary examine of all the above items  
on your vehicle to verify it's ready for trouble free driving.  
(A \$39.95 Value)**

**CALL AND SET UP AN APPOINTMENT  
503-293-7200**
